### DETAILED ACTION

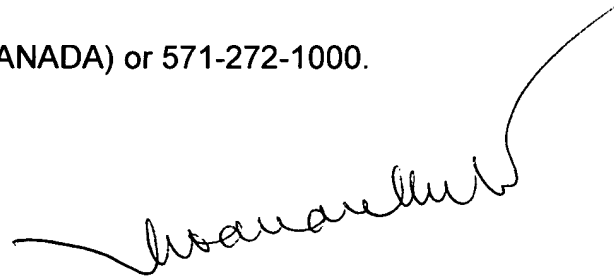

1. Claims 31-59 are allowed.
2. The following is an examiner's statement of reasons for allowance: none of the cited art discloses at least one antenna element connected to the minute loop antenna, the at least one antenna element operating as a current antenna so that the at least one antenna element is top-loaded by the minute loop antenna and currents flow in both of the minute loop antenna and the at least one antenna element when the metal plate is located apart from the antenna apparatus; wherein the antenna apparatus further comprises at least one first capacitor connected to at least one of the minute loop antenna and the antenna element, the at least one capacitor series-resonates with inductances of the minute loop antenna and the antenna element, wherein one end of the antenna apparatus is connected to a feeding point, and another end of the antenna apparatus is connected to the grounding conductor of the dielectric substrate, and wherein the antenna apparatus operates as a magnetic ideal dipole by the minute loop antenna when the metal plate is located closely to the antenna apparatus, while the antenna apparatus operates as a current antenna by the at least one antenna element when the metal plate is located apart from the antenna apparatus.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
